Departure will be **STRICTLY** at **0600HRS**. Please make sure you have all the necessary travel documents, gear, comfortable shoes and a camera for your memories with you. We shall stop in Arusha for one hour for snack-up, lunch and refreshments. We then proceed to Mto Wa Mbu via Dodoma road as you enjoy the beautiful countryside of Tanzania.

Mto Wa Mbu - Is an administrative ward in the Monduli district of the Arusha Region of Tanzania. The town is situated on the way from Arusha to the National Parks in Northern Tanzania, just at the foot of the Rift Valley.

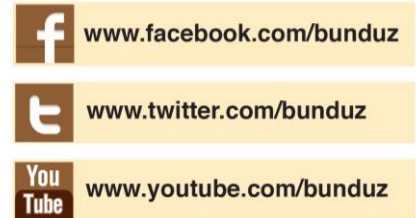

Mto Wa Mbu is the entry port to Lake Manyara National Park; the park with the tree climbing lions and many birds named after the long-drawn Lake that is fed by the water flowing down from the escarpment of the rift valley. It also conveniently on the way to Ngorongoro Crater and Serengeti which makes it an ideal rest place for most safari travelers.

The area around Mto Wa mbu was rather dry and hardly populated the early fifties, when the first steps were made to irrigate the area. Within a few years' hundreds of acres of newly cultivable land were created. Fruits and vegetables from all over Tanzania were introduced in the area. Within a few decades, the dry and empty plains were turned into green semi-urban center.

24th December 2017: Mto Wa Mbu - Iringa

On this day, rise early for breakfast. After breakfast check out and depart for Iringa. We will have a brief stopover in Dodoma city; where patrons will have the opportunity to sample out local food and explore the city as we proceed to Iringa thereafter.

The name "Iringa" is derived from the Hehe word Lilinga, meaning the fort. The little town is the perfect stop over point on the way down through the Southern Highlands or if you are off to visit Malawi and Zambia.

Dinner and overnight in Iringa.

25th December 2017: Iringa - Chitimba Beach, Malawi

Following our last night in Tanzania, we head through abundant mountain passes, rich grazing land, and banana and tea plantations towards the **Songwe border** post and into Malawi. Our first night will be spent at Chitimba Beach Campsite.

Formally 'Lake Nyasa', Lake Malawi covers almost an entire fifth of the country's area and provides the source of livelihood for majority of the Malawi people. Fishermen, fish traders, canoe and net makers all ply their trades here, and a common sight is that of a fisherman in his Bwato (dugout canoe made from hollowed out tree trunk) fishing on the lake at the break of day. The lake has the highest number of endemic freshwater fish species of any in the world.

Here you are free to enjoy your time on the beach or shop at a large curio market where you can put your bargaining skills to the test buying some of Malawi's famous ornate and carved chairs or do an optional full day trip to Manchewe Falls – After a 11km hike, you find yourself cooling down in a natural bath. If you're up for more of an adventure, you can always hike to Livingstonia – a small village above the lake on the Nyika Plateau. You should be aware beforehand, however, that this hike is a relatively long one (+/- 15kms, or 3 hours one way), but being witness to a village that is seemingly lost in time due to the difficulty to reach it is well worth the effort.

Dinner and overnight in Chitimba

This unique town offers colorful fruit and vegetable markets as well as an unexpected amount of ornate temples due to its large Indian community. If time is on our side, hopefully we will be able to make a stop in Chipata before arriving at our campsite that is situated a short distance from the town Centre.

5th January 2018: Johannesburg

Johannesburg is an African city of note. The city is characterized by contradiction and an apparent seamless combination of irreconcilable differences. The largest city in South Africa, Johannesburg is also the wealthiest and, without doubt, the economic powerhouse of Africa.

Attractions in Johannesburg Include:

The Apartheid Museum - Visitors to the museum are greeted with a very real reflection of what it was like to live in a racially segregated society. The museum has two entrances labelled 'White' and 'Non-white', and depending on which ticket you are issued, you will be ushered through one of the two.

Experience the vibrant township life – Soweto – A tour of this sprawling area will show you the many milestones of South Africa's turbulent political history. You'll see Walter Sisulu Square in Kliptown, where South Africa's Freedom Charter (a document used to help draft the country's Constitution) was signed in 1955. Hector Pieterse Memorial and Museum, where the famous Soweto uprising of 16 June 1976 took place. The famous Vilakazi Street, once home to two Nobel Peace Prize winners, namely former president Nelson Mandela and Anglican Archbishop Emeritus Desmond Tutu.

The Chris Hani Baragwanath Hospital, listed by the Guinness World Records in 1997 as the largest hospital in the world, as well as the vibrant Orlando Towers, where the more adventurous can get their adrenaline pumping with an urban bungee jump.

The Orlando Towers, Soweto - The Orlando Towers bungee in Soweto adds a whole new dimension

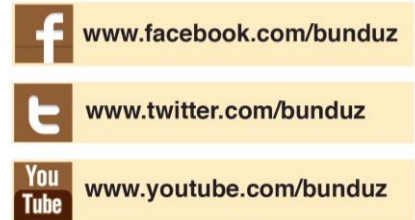

to sightseeing in this famous Johannesburg township. Bridging the gap between adventure and township tourism, you can enjoy one of Johannesburg's most vibrant landmarks like never before. With 100m drop to the ground, bungee jump, swing or free fall your way to the bottom.

Gold Reef City, Johannesburg - The Gold Reef City theme park, located in central Johannesburg, is built around an authentic 19th century gold mine, and brings together fascinating historical attractions with some of the most thrilling rides in the southern hemisphere. For a day of frenetic family fun, it cannot be beat.
